

Software Developer (m/f/x) Platform Ruby/Go (Remote or on-site)

As a software developer (m/f/d) in the Platform team, you work at the interface to and for our cloud hardware. Thousands of virtual servers are created on our infrastructure every day - typically in less than ten seconds. With your knowledge and own ideas, you ensure that this process remains fast and secure.

You think it could be even faster? We are open to your solutions and concrete project ideas. Over ten thousand host systems have to be administered and maintained, and the number is constantly growing.

Help us support our admin team with clever automation and high-performance monitoring tools and master exciting scaling challenges.

A sophisticated continuous integration/deployment pipeline based on Gitlab and Docker will help you develop efficiently and automatic tests and code reviews will give you the necessary security.

We rely on modern technologies, but do not follow every hype, according to the motto „the right tool for the job“. We know how important the right tooling is for developers and therefore continuously improve it.

Our stack in key words: Ruby, Go, Qemu, Redis, Ceph, Docker, Prometheus, OpenSearch, Ansible and RabbitMQ.

Your skills

- » Very good programming skills, ideally in Ruby and Go
- » Experience with Linux
- » You value clean, comprehensible code (DRY, KISS) and automated testing
- » We can rely on you, you are independent and at the same time open to new ideas.
- » You update existing documentation and continue to work on it independently
- » Solid knowledge of English

What you will work on

Our product
hetzner.de/cloud

Our public API
docs.hetzner.cloud

Open source
github.com/hetznercloud

Our benefits

Flat hierarchies

You can expect a fun team with a pleasant work atmosphere.

Pick your kit

Whether PC, Mac or Linux. We provide you with it.

Work from home

We're flexible and open to you working remotely.

Flexible working hours

Except for our core working hours, you can arrange your own working hours.

Attractive remuneration

We also value your work financially.

Public transport ticket

We cover the cost of public transport tickets.

Working environment

We have a modern air-conditioned office, with height-adjustable desks, and no open plan.

All-round care

Free drinks and snacks are available in our office kitchen.

Relax

Take a break, loosen up, and play a round of table football.

Who we are

In partnership with Hetzner Online, we develop and operate the Hetzner Cloud. In doing so, we use modern technologies and strive to optimize work process. We develop innovative solutions in the area of cloud, hosting and highly dynamic infrastructures.

How to apply

Applying is quick and uncomplicated:
Send us an email to jobs@hetzner-cloud.de

You will receive feedback from us as soon as possible.
